THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

THURSDAY, OCTOBER 21, 1869.

NORTH CAROLINA RAIL ROAD.

We did not expect what we said upon the subject of the lease of the North Carolina Rail Road would be approved by the Stockholders of the Raleigh and Gaston Road. The Raleigh and Gaston is a short line, and it looks to the North Carolina Road for its support.

For this support or, rather, for the good will of the North Carolina Road, the Raleigh and Gaston will pay this year one hundred thousand dollars. The Wilmington and Weldon Road will pay twenty per cent more than the Raleigh and Gaston Road does, if the North Carolina Road will carry its freight to and from Norfolk by way of Goldsboro, instead of by way of Raleigh.

The North Carolina Road lost annually from 50,000 to 60,000 dollars by turning off the freight of their Road at Raleigh, instead of sending it the full length of the Road to Goldsboro. The contract with the Raleigh and Gaston is such that they now pay to the North Carolina, all that could be got by taking the freights to Goldsboro.

We have little hesitation in saying that 20 years from to-day, the Raleigh and Gaston, under its present control, will pay per annum, $240,000 to the North Carolina Road, for its good will.

The fare on the Seaboard Road is seven cents per mile. On the Raleigh & Gaston, it is six; on the North Carolina, five. Five is too much. Under the lease there is no chance to reduce it in twenty years. We are told the Stockholders favor it, because they will get six per cent. annually. This is a mistake. The six per cent. will go to pay the debt of the Company.

The freights of the Road have regularly and steadily increased. At the end of twenty years they will be greatly increased; they will be five or ten times greater than they are at present. Shall the Raleigh & Gaston Road take the benefit of these increased freights and pay no more than $240,000? Where is the man who would manage his own business in such a manner?

The cost of the Road was $4,000,000. The equipments and real estate purchased cost largely over a million more. The Road is in better order to day, than any Road of the South. There has been more labor and money expended upon it than any Road of the South. From the completion of the Road up to the present time, from 200 to 400 laborers have been at work to make it what it is.

In 1866 the receipts amounted to near $1,000,000. Much of it was expended in work upon the road-bed, ditching, gravelling, &c.

In 1867, the receipts were $690,000. The outlay was $92,000 more than the receipts. Much of it was expended in work upon the road bed of a permanent character.

Would any man buy a farm at $10,000 and then build fences, ditch and drain to the amount of $50,000, and then lease or sell for six per cent on the $10,000? The Directors of the North Carolina Railroad have done this very thing, in the lease of the Road. Major Smith, President of the Road, says it is best to lease, for if it is not leased the Legislature will sell the Road.

Now, it so happens that the "Ring" who had the Road on the block before the last Legislature for sale, are the very persons who have leased the Road.

The friends of the lease pretend that they are in fear lest Littlefield and the Ring will sell the Road. Now leasing for twenty years will not prevent the Legislature from selling, they can sell subject to the lease.—They can't sell without first taking the Governor in the Ring. They can't lease without taking the Governor in the Ring. Rumor hath it that the Governor is in the Ring, and that his State Proxy for the meeting is fully committed to the lease.

There were, if we remember aright, only 18 or 20 votes for selling the Road at the last session. This pretended fear of the sale is all to force the lease.

PETER ADAMS.

Our friend Adams of Greensboro, called Tuesday, he is opposed to the lease of the N. C. Rail Road, says he became a Smith man, after the speech at Salisbury, denouncing the Legislature for their stupidity, dishonesty and bankruptcy. He is pleased with Major Smith's management of the Road, and says he is making more than six per cent now, and it is folly, to sell for six, when you are making more than six, and a prospect in twenty years of making twelve.

We had the pleasure of seeing in our sanctum yesterday, Messrs. Yates of the *Western Democrat*, Burton of the Petersburg (Va.) *Index* and James of the Wilmington *Journal*.

We hope to welcome many other of our brethren of the Press before the week closes.

One of the New York papers nominates A. T. Stewart for Mayor.

The *Independence Belge* states that the officers and soldiers of the French army are spoiling for a fight, and that a war must be brought about to cool them down.

THE STATE FAIR.

Notwithstanding the ugly aspect of the weather yesterday, the crowd was very large and the interest proportionally increased. There were many additions made to the articles for exhibition, a few only of which we are able to notice.

At 11 o'clock the trial of speed came off, mile heats, best three in five, in harness, purse $50, entrance $10. There were only two entries, a sorrel horse by D. T. Harvey, Esq., and bay poney by T. Paxson, Esq. The sorrel horse was declared the winner in three straight heats; time, 3.8; 3.4½ and 2.58.

At one o'clock the ploughing match came off. The following only were entered:

Tar Heel, manufactured by B. P. William on.

The No. 19½, M. & H., by J. H. Thompson.

The old Davis, by the same.

The 19½ cast iron, by the same.

The Patuxent, by Sinclair of Baltimore.

The Watt, Cuff and Brace, by J. M. Towles.

The fine team of sorrel mules of Mr. Porter Stedman, was used for drawing each.—Of course we could not get the decision of the Judges, and are not disposed to forestal their judgment by any opinion of our own.

At 3 o'clock the pacing match was announced, best three in five, mile heat, $25 premium, $5 entrance.

S. R. Hunt entered bay mare.

Wynne & Co. entered black horse.

The latter was distanced and withdrawn on the first heat.

The mare made the first round in 1.20, coming in on the second round at leisure.

A very interesting fancy match then came off between a bay mare belonging to Mr. J. S. Bryan and a bay horse belonging to Mr. J. C. Suggs, best two in three, mile heats, which was won by Mr Bryan in two straight heats, though his competitor held him quite uneasy for it, time, 3.18, 3.14.

Mr. P. R. Davis's sorrell colt, Timon, and Mr. ——— Graves' bay colt, Nick, two year olds, were trotted round the track for exhibition and elicited much admiration.

Everything connected with the Fair passed off agreeably, although the weather was inauspicious, and the vast crowd of persons seemed to enjoy themselves hugely.

To-day at 11 o'clock is the pacing race to harness; at 1 o'clock, running race, half mile heat and repeat; at 3 o'clock trotting race to harness, best three in five.

Immediately after the last mentioned, there will be a running race, one mile and repeat, three to enter.

Then a mule race, free to all, harness or saddle, best two in three, $10 entrance, purse $20.

A good time generally may be anticipated, if it don't rain.

ARTICLES ON EXHIBITION.

Among the various articles on exhibition, we notice the following, as more immediately connected with the Agricultural and manufacturing interests of the State.

A number of specimens of handles from the Greensboro' Handle Factory.

By J. A. Leach & Co, and Shelly, Bro. & Co., of Thomasville, a superior article of brogans and ladies' morocco boots.

By Jones Brothers, Thomasville, ladies' fine shoes of fine finish and workmanship.

A "Georgia" Cotton Gin, exhibited by Messrs. Mitchell & Allen, of Newbern.

A fine display of apples, grapes, wines, preserves, pickles, syrups, jellies, by L. Froelich, of Duplin.

Monkey-wrenches, screwplates and other implements by J. C. McCown, of Durhams.

S. T. Wilson, of Granville, exhibits a beautiful lot of apples—seventy-five varities—thirteen different kinds of wines, and other domestic articles.

The Forestville Plow Factory, W. B. Dunn & Co., the seven-pointed plow, turning plows and others.

J. Golden Wyatt, of Catawba Springs, exhibits sample of farm gate without hinges or hooks.

Louis Brown, of Salisbury, a miniature Engine, in full operation.

The Beasley Cotton Press, invented by a young North Carolinian, and manufactured by Tappey, Lumsden & Co., of Petersburg, Va. This attracts much attention.

The Utley Cotton Press, entered by T. H. Briggs, Esq., of Raleigh. Also, the Utley Strawcutter, a superior machine of its kind.

J. H. Thompson, Eagle Foundry, Davidson county, a great variety of plows and other agricultural implements.

Mitchell & Allen, Dealers, Newbern, a variety of agricultural implements.

The McMannen Smut Machine, too well known to need description.

Two sizes of Washing Machines exhibited by Mr. Kendall of Randolph.

E. Whitman & Sons of Baltimore, exhibit a great variety of agricultural implements.

An old style Southern Cotton Gin with improvements, by Samuel Rowland, Esq.,

E. & H. Fries of Salem exhibits beautiful specimens of Jeans from the Salem Woolen Factory.

A large lot of cooking, parlor and office Stoves, by T. H. Briggs of Raleigh.

E. H. Pogue, of Hillsborough has on hand a superior lot of tin ware.

Every visitor to Floral Hall was attracted by the fine display of woolen fabrics from the Rock Island Factory, at Charlotte, especially by the samples of fine black doeskin, cadet gray, and other cassimeres, satinets, jeans &c.

By Mrs. Nobles, Selma, large quantity of beautiful home made silk.

A variety of colored sewing silk by E. A. Vogler of Salem.

Some superb specimens of embroidery by Misses Mattie and Mollie Nixon.

A Fancy work bag from Amsterdam, exhibited by Mrs. Nixon.

Fine specimen of black sewing silk by Miss Lucy E. Foster of Franklin.

Some of the neatest and best proportioned buggies we ever noticed, exhibited by N. S. Harp, of Raleigh. We heard an old and experienced carriage and buggy maker say, he never saw them surpassed.

Double Turbine Water Wheel, for economizing water power, manufactured by Pool and Hunt, Baltimore.

Mr. Lamb, of Jamestown, Guilford county, exhibits some finely finished Rifles.

Mr. Foster, of Wake, exhibits his ingenious "wild-goose" type setting machine, which is the general wonder of visitors.

We shall notice other articles as we can make room. Of many of the foregoing, as well as many other articles in the various departments, we shall make more extensive notices hereafter.

We have not yet had the time to "interview" the live stock and fowl departments. We shall give these some attention to day and to-morrow.

We ask exhibitors, manufacturers and inventors to furnish us with information in regard to the various inventions and manufactures in which they are interested, that we may use it as occasion and the advancement of the material interest of the State may require.

MEETING OF THE AGRICULTURAL SOCIETY LAST NIGHT.—This Society met in Commons Hall last night.

An Essay, by Dr. Thos. D. Hogg, on cheap transportation on Railroads was read by the President, which elicited some remarks from Rev. J. Brinton Smith and a very interesting speech from Admiral Wilkes.

An Essay was also read by Mr. James A. Leach of Thomasville on the manufacture of shoes, and the comparative cost and value, as contracted with those of Northern manufacture.

On motion of Dr. Grissom, Messrs J. R. Dodge and Wm. Saunders, members of the Agricultural Bureau at Washington, were invited to take seats in the body as honorary members.

Hon. D. G. Fowle offered the following:

Resolved, That a Committee of three be appointed to examine the type setting machine exhibited by F. G. Foster, of Wake, and report to the Executive Committee, whether the same is worthy of special notice.

The President appointed on this Committee, Gov. Holden, John C. Gorman and Mr. Grady, of Wilmington.

Jno. S. Dancy, Esq., of Edgecombe, then read an essay on the cultivation of cotton in his county.

This Essay elicited queries from a number of members, and a very instructive and entertaining speech from R. H. Smith Esq., of Halifax, Mr. Hill of Duplin, Gen. Cox of Wake and Rev. Dr. Mason.

Capt. Jos. Davis, of Franklin, addressed the Society on the importance of giving more attention in this State to the cultivation of grapes, and the raising of bees and chickens, and introduced Mr. John G. Arrington of Nash, who presented the Society with an Essay on poultry raising, which was read by the Secretary.

On motion, the Society adjourned to 7½ o'clock, to morrow evening.

MORE OF THE FRATERNITY.—Evans of the Milton Chronicle, having obtained leave of absence from Jesse Holmes, made his appearance in the city, yesterday. We also had the pleasure of seeing here, Drake Jr. of the Statesville American, Stone of the Weldon News and Chapin of the Register. Stone left last night on his return home, Chapin was missing, and the others were sober at the hour of "going to press," last night.

HELPS TO VISION.—Dr. Bernhardt requests us to say that he will remain but a short time in Raleigh, and that those who may desire glasses to assist the sight would do well to call on him immediately. His success has been encouraging, many have availed themselves of his services, whose testimonials to the great benefit they have received, could be given by scores and hundreds. It is better to "take time by the forelock" and supply yourselves with glasses while an opportunity offers, than to regret it when it is past.

Room and office at the Yarborough House.

ORATORICAL PRODIGY.—Master Dickey Tillery, the most wonderful speaker of his age, (only nine years,) that has ever appeared, will give an exhibition of his wonderful powers at Commons Hall, to-night, at 8 o'clock. We have heard him, and we will guarantee, from what we know of him, that no one can hear him through one of his well delivered orations, with dry eyes. Go and hear him; admission 50 cents.

FIRST OF THE SEASON.—There was a slight "spit" of snow yesterday (Wednesday) morning, at Ridgeway and other points along the R. & G. Railroad. This was quite in contrast to the water melons we saw brought in from the country on the same day. "North Carolina has all varieties of climate."

THE WILD GOOSE TYPE SETTER.—We most respectfully call the attention of Managers of our State Fair to the invention of Mr. F. G. Foster of this State, for setting type, and which is now on exhibition in Mechanic's Hall at the Fair Grounds. We do this because there is no premium offered for inventions of this kind, and because we really think it deserves that encouragement which all who have seen it operate, will say is richly due so ingenious and successful a machine. A simple, cheap and efficient type setter, has been so often attempted and resulted in failure, that many printers contend it is an impossibility, and have called the effort to get up such an invention "a Wild Goose Chase," hence the name adopted by Mr. Foster for his Machine. We hope the Committee on Discretionary Premiums will give this matter attention and take proper and just notice of this invention.

Since the above was in type, we see the Society has appointed a special committee to examine the Machine.

A RADICAL PAPER CHANGES FRONT.

We take the following from the *N. Y. World*:

The bickerings and jealousies on the Republican side in the rural districts are taking a deeper hold on the party than is generally supposed. Not only are there numerous bolts in their conventions, but the temperance societies are holding their meetings and deciding not to vote for some of the candidates on the Radical State ticket. They are even charging Greeley with selling them out, and declare their intention to either stay away from the polls or else to vote for only a portion of the ticket, leaving the balance in blank. A Radical paper at Hornellsville (the Hornellsville *Tribune*) announces its disgust with the party; has taken down the Republican State ticket and placed the Democratic in its place, assigning the following reasons for its course:

[From the Hornellsville Tribune, October 14.]

TO THE PATRONS OF THE TRIBUNE.

In justice to the patrons of this paper, as well as to the public generally and a proper regard for our own self-respect, it is due that some reason or explanation should be given for the change in the political complexion of this paper.

It is well known and understood that the *Tribune* has, up to this issue, been an ardent supporter of the Republican party and the present administration.

In the future we propose to devote the colums of the *Tribune* to the support of the Democratic party, believing as we do, that that is now the only party that contains the elements and distinguished ability and statesmanship requisite and necessary to bring our shattered government back to the fundamental principles upon which our forefathers wisely deemed they had securely placed it.

The Republican party of 1860 was based upon a platform of principles radically different from those enunciated by the same party in 1869. In fact ever since the present dominant party came into power, all its acts have had a general tendency to subvert its original declarations, by legislating outside of the Constitution, centralizing the power of the general Government, and coercing rebellious States into measures that tend only to perpetuate its control of the Government and continue in power a horde of unscrupulous political cormorants who have fastened themselves upon the unclean drippings of the public crib, where they hang with the tenacity of a horse leech, crying, "give, give."

We have long since been convinced that the more widely the powers of the general government are diffused among the States and the people, the more freedom there will be for the people; and the more evenly the two great political parties are balanced, the more honest and beneficial will be the legislation and administration of governmental affairs. The history of our own government will bear us out in this proposition.

* * * * *

In the people themselves rests the perpetuity of their own political rights and privileges, and all successful attempts to centralize the political powers of the government by placing them in the hands of the few, always interferes with and abridges the rights and privileges of the masses.

Under the administration of the Republican party we have seen two, at least, of the most important, and we might say *vital*, principles of our government entirely changed and subverted, which must inevitably entail heavy burdens upon the laboring classes.

When our Government was first organized it was based upon the principle that "the people were sufficiently intelligent to govern themselves," in contradistinction from that of being governed by a monarchy or dynasty: This intelligence was to be developed in the exercise of the elective franchise, each State for itself having the right to declare who were the proper persons to be put in possession of this privilege. Now this right of the State authorities, without any change of the instrument or compact which confers it, has been ruthlessly torn asunder and centralized in the law-making power at Washington. For if Congress has the right to say who shall be voters in South Carolina, then it has the right to say who shall vote in the State of New York. Thus we claim that the first principle upon which our Government was organized has been changed, and thereby the rights of the States and the people abridged.

Again: In regard to the more vital principle of finance and taxation, our Government has undergone a most radical change—a change which must eventually entail the most enormous burdens upon the toiling millions of the Republic for all time to come, unless it is brought back to where the founders of the Government based it. The patriotic statesmen who sought to make this Republic of America an asylum for the down-trodden and oppressed of the monarchies of the old world, engrafted, as a fundamental principle into our organic law, "that upon the real and personal estate, the wealth of the country must rest the responsibility of taxation and the support of the Government." The Republican party has reversed this essential and life giving principle, and placed the burden of taxation upon the small property-holder and the laboring classes, and right where England has it to-day. Is this true? Let the millionaire, with his millions of Government bonds, exempt from taxation, answer. Let the poor laboring classes, who are taxed on every article they consume, answer. Let every farmer and owner of corner lots, who are taxed on everything they own and on all he raises to pay the interest on the bonds held by his rich neighbors, answer. If this be Republicanism, we are no Republican, and plead justification in the step we have taken.

To prove these statements, and to show to our readers their correctness, we have taken a position antagonistic to the party we have supported. We could not claim to be a Republican without endorsing the principles of the party; and if changing the fundamental principles of our government is Republicanism, then we are no Republican. And as we have said before, and have long since been convinced that the *Republican party of 1856 or 1860 is not the Republican party of to day*; and to longer struggle with our honest convictions and self-respect, and to further stultify ourself by pandering to a party whose principles and measures we cannot give our cordial and hearty support, and only a quasi endorsement, is useless, not to say degrading to our manhood, and humiliating in the extreme.

To our new made Democratic allies, we gently and modestly "tip our stove-pipe" and extend the right hand of political fellowship, assuring them of our cordial and hearty support of all peaceful and legitimate measures that shall tend to bring our goverment back to the sure and Democratic basis upon which our forefathers placed it. Equal taxation, equal representation, no class legislation, an honest and economical administration of all governmental affairs, and an unfaltering opposition to the centralization of political power in our general government shall be inscribed on our banner, and commend our every effort; other than these we now make no formal pledges, reserving to ourself the right to speak freely and fully upon all questions of political note, as our reason and judgment shall dictate, and in such terms as the times, case, and occasion or provocation may require.

THE SENTINEL.

CITY AND STATE ITEMS.

THURSDAY, OCTOBER 21, 1869.

☞ THEO. N. RAMSAY, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

LOST.—On Tuesday night between Tucker Hall and Capitol Square, a black Lace Veil, which the finder will please leave at the SENTINEL office. 1t.

REMOVAL.—The office of the *Episcopal Methodist* has been removed from Edenton street to the rooms over Mr. Alfred Williams' Book Store, on Fayetteville street, where those having business with the editor may find him in business hours.

ANNUAL MUSICAL SOIREE at St. Mary's will take place this (Thursday) evening at 8 30. The public, generally, are invited to attend. We have seen a programme of the music for the occasion, and can say it promises a rich treat for those who may be present.

A NEW ORGAN FOR THE ROMAN CATHOLIC CHURCH.—The American European Express Co. have just notified the Pastor of St. John's Church of the arrival in New York, per the Steamer Perdire from Havre, of two cases consigned to Austin Baldwin & Co. Broadway, New York. These cases contain the beautiful instrument ordered by the Rev. Father McNamara from the establishment of a great manufacturer of Paris.

Mr. A. J. Ratjes of the Exchange Hotel, who is the Organist of St. John's Church, and who is well acquainted with the power and sweetness of these Organs, says that this instrument will create a deep sensation in our community.

LECTURE LAST NIGHT.—Prof. Hewlett delivered his Lecture, "Muzzle that Dog," to a crowded house last night at Tucker Hall. He will lecture again to night, subject, "Hits at the Times."

TRIBUTE OF RESPECT.—Salutes were fired at the camp of the Federal troops in this city during the day, yesterday, as a token of respect to the memory of ex-President Pierce, who died at his home, in New Hampshire, last week.

On yesterday, we had the pleasure of a visit from P. F. Duffy, Esq., of Greensboro'. During the late Presidential canvass, Mr. D. won for himself the reputation of a gifted orator and accomplished gentleman.

FUN AHEAD.—We understand there will be a velocipede race on the track at the Fair Ground on Friday. Many persons have never seen one of these animals, and still fewer have ever seen them ridden.—We have no doubt the race will be witnessed with much interest.

WE beg the attention of our merchants to the cards of Messrs. Ross, Roberts & Co., of New York, and Blackmar, Roberts, Chandler & Co., of St. Louis. These two firms are well and favorably known throughout the entire South, and being familiar with the wants of our section we can cordially recommend them as in every way entitled to the confidence and support of our community.

SPLENDID RAFFLE.—For a fine pair of fillies, a close match 3 and 4 years old very gentle and kind, with a beautiful pony phaeton and harness complete, to come off at the Fair grounds Thursday 21st inst.—For further particulars call at Messrs. W. H. Jones & Co.

We have seen the above turn out and can truthfully describe it as "splendid." The team are gentle and kind in harness, and the phaeton and harness would not discredit a Revenue Collector or Insurance Agent.

MIND YOUR EYES.—L. M. Davis, the North Carolina optician, who fits glasses to all eyes, will be in Raleigh on Tuesday, and remain during the Fair. His glasses are good as well as cheap.

He may be found at the Yarborough House, Room 21.

SUSPECTED FORGERS ARRESTED.—We learn from the Wilmington *Journal* that the City Marshal Sunday last received a telegram from Lieutenant A. E. Phillips, commanding Charleston Detective force, requesting the arrest of W. D. Westlake and J. Bugdan, two white men charged with forgery, swindling and larceny, who were making their way to that city. On the arrival of the Southern train in Wilmington that night, an officer duly commissioned by the Marshal arrested two men answering the descriptions given and placed them in the guard house. They were brought before Judge Cantwell at the police court Monday morning, and ordered to be continued in custody till Tuesday morning, by which time an officer acquainted with the whole facts is expected to arrive from Charleston.

The arrested parties are rather fine-looking young men, dressed very genteely.—They have with them two large trunks which have not yet been opened.

A HORRIBLE OUTRAGE.—We hardly know how to keep up with the times, says the Hillsboro *Recorder*. A horrible outrage is now related us as having been perpetrated by a negro upon the person of a young white girl in Chatham county, week before last. As told to us, we can but sicken at the black villainy of the offence and shudder to think of the awful punishment that followed. If there be in the account we give, any incorrectness, we hope to be informed, and we will be quick in placing it before our readers. It was told us as follows: The young white girl had been over to a neighbor's—about three miles off—and was returning when intercepted in the road by a negro man who dragged her into the woods. He carried out his helish purpose and tied her to a tree. There he kept her all night. The next day he brought her something to eat. He told her he would be back at night. But in the evening her friends who were on the hunt, found her and she told them what the negro had said. They placed a guard in ambush and caught him when he came. They asked the girl what they should do with him, and she said "skin him alive." And they *skinned him.*

Served the scoundrel perfectly right.

The Hillsboro *Recorder* says that two negro men were found hanging dead about nine miles from Hillsboro last week. On their backs was placarded, "For barn burning and threats."

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses. It requires** professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but careful ly examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice,** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most eminent honorable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Eminent Physicians from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheer

C. W. LAMBETH,

and sup't of Introduction.

From DR. WM. R. HARRELL, Prin. High School, Snow Hill, N. C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no other when these could be obtained.

From Rev. ALBERT SMEDES, D. D, Rector of St Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies - Monteith's [No. 4] and McNally's [No. 5] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALBERT SMEDES.

From J. W. GULICK, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular. J. W. GULICK.

From Col. WM. BINGHAM, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. CLOSS, Prin. Durham Academy, N. C.:

DURHAM, N. C.

I design introducing the present e-ition McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSS.

From M. L. LITTLE, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

NEWTON N. C.

Will introduce the Univer-ity Arithmetic next term. Have examined it with much satisfaction. An admirable work. M. L. LITTLE,
Prin Pleasant Hill Seminary.

From Rev. S. IVEY, Prin. Auburn Academy, N. C.:

AUBURN, N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school.

STINCEON IVEY.

Prof. WM A. OBERMAIN, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. DUGGER, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 5] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. KERR, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most prim ary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended. But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. BERNHEIM, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National Series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. JOS. H. FOY, President Stantonsburg Scientific High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——— which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the *chef d'oeuvre* of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1866.

We would call the attention of Teachers in Western North Carolina to the valuable School publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now issuing large editions of these Standard School Books for the Southern States. The series consists of the National Primer, or Word Builder, National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them, which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1866.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1866.

NATIONAL FIRST READER.—We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. *Daily Herald*, 1866

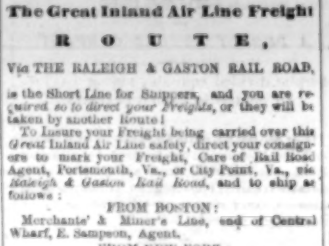
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes; and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in expaining its merits.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 589 policies, received an income of seventy-eight thousand dollars, and possessed net assets summing up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13 357 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
